

PROFESSIONAL SUMMARY

A dedicated Full Stack Web Developer with over 9 years of experience building and maintaining dynamic websites and web applications. Passionate about crafting seamless, end-to-end digital solutions that are both robust and user-centric.

Technical Skills

- **Front-End Development:** Proficient in **HTML5, CSS3, JavaScript (ES6+), jQuery, and Bootstrap**. Experienced in building modern, responsive interfaces with **React.js**, ensuring optimal user experience (UX) and cross-device compatibility.
- **Back-End Development:** Skilled in **PHP (Core & OOP)** and the **Laravel** framework. Extensive experience with Content Management Systems (CMS) and platforms including **WordPress, Joomla, Drupal, Memberium, and Shopify** for creating scalable and efficient server-side logic.
- **Core Competencies:** Full Stack Development, Responsive Web Design (RWD), CMS Development & Customization, API Integration, Performance Optimization, and Cross-Functional Collaboration.

Professional Approach

A collaborative team player who values clear communication and thrives in fast-paced environments. Known for maintaining composure under pressure, meeting deadlines, and methodically solving complex technical challenges. Committed to continuous learning and applying the latest web development trends to deliver high-quality, functional, and visually polished products.

SKILLS

- **Web Development**
 - HTML, CSS, JavaScript, jQuery
 - Bootstrap, Tailwind, Typescript
 - PHP, WordPress, Shopify, WooCommerce,
 - Elementor, WP Bakery, DIVI theme,
 - ACF Pro, Gutenberg & Custom Gutenberg Blocks
 - MySQL, RESTful APIs, MVC Architecture
- **UI/UX**
 - Adobe Photoshop, Adobe XD, Figma, Sketch

EDUCATION

- Bachelors in Computer Science 2013
- University of Arkansas at Little Rock, Little Rock, Arkansas
- English: technical, conversational.

WORK HISTORY

July 2020 – Present

Phu Concept Inc.

Rochester, New York.

Key Achievements

- Project Leadership
- CMS Expertise
- Framework Proficiency
- API & Service Integrations
- Frontend Development
- Team Enablement
- Documentation

○ Full Stack Developer

- Contributed to & steered multiple projects, handling responsibilities from development to deployment & maintenance.
- Developed & maintained WordPress websites, including custom themes & plugins, enhancing site functionality & user experience.
- Integrated various third-party services & APIs, such as payment gateways (Stripe, PayPal), CRM systems (Salesforce), & marketing tools (Google Analytics, Mailchimp).
- Integrated LLM APIs to add context-based conversation, summarization & report generation abilities to the websites.
- Designed & implemented responsive UI elements using HTML5, CSS3, & JavaScript, ensuring cross browser compatibility & mobile responsiveness.
- Migrated legacy websites to WordPress & Drupal, optimizing performance & security. Implemented best practices in PHP development, including Object-Oriented Programming (OOP) & MVC architecture.
- Integrated various APIs & third-party services into web applications to extend functionality. Collaborated with clients from diverse industries, including e-commerce & healthcare, to deliver tailored web solutions.
- Enhanced website performance through optimization techniques, including caching, code minification, & database tuning.
- Ensured legal & regulatory compliance requirements, including GDPR, CCPA, & HIPAA, by implementing necessary data protection & privacy features.
- Ensured compliance with web accessibility standards such as WCAG 2.1 & ADA, using ARIA for dynamic content.
- Provided training to development teams on accessibility best practices & inclusive design principles.
- Documented technical & operational aspects of projects, ensuring comprehensive handover & maintenance documentation.

Feb. 2018 - April 2020

Apogee Invent.

Douglasville, Georgia.

Key Achievements

- Responsive User-friendly UIs
- Laravel Backends & APIs
- Website Migrations
- Site Speed & reliability
- External APIs & Services

○ Full Stack PHP Developer

- Developed and maintained WordPress and Drupal websites, including custom themes and plugin/module development.
- Provided UI/UX enhancements using HTML5, CSS3, Bootstrap, and JavaScript to create visually appealing and user-friendly interfaces.
- Managed secure handling of user data through encryption, secure authentication, and regular security audits.
- Implemented semantic HTML to improve screen reader compatibility and keyboard navigation. Worked on PHP-based back-end development using Laravel, building APIs and integrating them with front-end technologies.
- Applied Laravel's built-in tools for task scheduling, queues, and testing to improve application functionality and reliability.
- Migrated non-responsive websites to mobile-friendly responsive designs, improving user engagement across devices.

- Applied performance optimization techniques, including caching strategies (e.g., browser caching, server-side caching), content delivery networks (CDN), and lazy loading of images and assets.
- Utilized tools like Google Page Speed Insights and GTmetrix to analyse and improve website speed and performance.
- Led the migration of legacy Drupal and WordPress sites to newer versions, ensuring compatibility with the latest features and security updates.
- Provided post-migration support, including performance tuning and troubleshooting to ensure a smooth transition.
- Developed custom solutions for integrating external APIs into web applications to extend functionality and improve user experience.

March 2013 - May 2015 ○ UI/UX / Frontend Developer

Big Spoon

Houston, Texas.

- Developed and maintained WordPress and Drupal websites, including custom themes and plugin/module development.
- Expert in Web Design UI/UX Design and Front-End Developer.
- Expert in HTML, CSS, Bootstrap, SASS, JavaScript, AJAX, jQuery.
- Creating wireframes, PSDs, AI file and converting them to Front-End using HTML, CSS/Sass/Lass, Bootstrap.
- Gathering and evaluating user requirements, in collaboration with product managers and engineers.
- Illustrating design ideas using storyboards, process flows and sitemaps.
- Designing graphic user interface elements, like menus, tabs and widgets.

Contract Project

Atlantic Coast Mortgage LLC

Fairfax, Virginia.

○ WordPress Full Stack Developer

- Translated Figma designs into responsive HTML/CSS/SASS/jQuery.
- Crafted a bespoke WordPress theme from the ground up, utilizing custom HTML for seamless integration.
- Leveraged advanced tools and plugins including ACF Pro, FacetWP, Hero Menu, Gravity Forms, PHP Cookies, Custom Schemas (later replaced with Yoast SEO Plugin).
- Total Experts API Integration with Gravity Forms using GForms Hooks for streamlined user data posting.
